

Minor Modifications Of Treaty Terms

New York.—The Associated Press issues the following:

In Paris the Council of Four continues to discuss points brought out by the German counter-proposals to the German peace treaty, especially as concerns territorial questions and reparations.

Experts on both these questions have been called in by the French for consultation, and the belief apparently prevails in unofficial quarters in Paris that some modifications may be expected in the original terms of the treaty, especially as regards the San-Sohn and Tilsit clauses.

Discussion of the protest of Germany that being left without merchant ships, she is rendered impotent to resume her trade, and thereby unable to aid in paying the indemnities asked, also has been taken up by the council.

The expectation is that the council will heed reports of the urgent necessity of a quick decision on the matters in controversy owing to the situation in Germany.

One report has it that Herr Noske, the German minister of defense, has inspected the coast defenses and ordered the garrisons to be ready for emergency.

An appeal to the United States people by magistrates of 200 German municipalities, including virtually half the population of Germany, has been signed. It demands a "peace of justice," under President Wilson's 14 points, and protests against the continuation of the blockade against Germany.

Paris.—These are anxious days throughout peace conference circles, with both the German and Austrian treaties in the balance, and every effort is being made to secure a quick settlement. Private conferences are going on, including one between A. J. Balfour, British Foreign Secretary, and Col. House, of the American delegation, all seeking to clarify the situation and determine the course of action.

The prevailing view of those taking

part was hopeful of early and satisfactory results. They admitted that the conditions were difficult and the differences were rather sharply defined. It is indicated that there was nothing like an impasse or anything threatening an agreement. Indications were that certain general results are already beginning to take form. The German counter-proposals, as yet, undoubtedly, will be rejected, but a number of suggestions may be embodied in the allied treaty, not with any purpose of modifying or settling the document, but for the purpose of making it workable and achieving the supreme end of getting it signed and restoring peace.

Certain concrete results appear to be taking form, namely the fixing of reparations at a sum, instead of the hundred million marks, instead of giving the commission indefinite authority to assess beyond that sum, reducing the period of occupation of the Rhineland frontier from fifteen to twenty years.

Redjustment of the Silesia treaty, at which Germany was greatly aroused, so that the population may secure self-determination, probably through plebiscite, will be left to the League of Nations, the British and United States view at first inclined toward admitting Germany, on the ground that it will bind her to a peace, and France would not consider any association with Germany. So it is understood that Pres. Wilson would gradually come to Mr. Clemenceau's view of keeping Germany out of the League.

Reparations make up the amount of the reparations definite, for the first payment may be extended. The allies have fixed two years: the German counter-proposals ask seven years. The allies suggest a compromise of four years.

The German complaint that they will be without merchant ships, it is suggested, will be met by the allies chartering a limited number of ships to that the restoration of trade will permit the payment of reparations.

Labor Unrest

Suspicion That Workers Are Being Systematically Robbed By Profiteers

Toronto.—An immediate effort to reach the solution of the labor unrest manifest throughout the country is demanded by the provincial executive of the Great War Veterans' association, which has been organized. The executive calls for drastic steps to deal with the labor, food and clothing situation by the present cabinet.

The unanimous opinion of the executive was that their efforts had been fruitless, and the recent steps were fruitless because of the labor unrest. This unrest, the executive believes, is largely due to "suspicions that the workers are being systematically robbed."

The executive calls for a solution of the high cost of living. For representation upon any committee which is chosen for investigating the question.

Dodging Responsibility For Starting War

Berlin.—(Associated Press)—Prof. Hans Duhrebeck, General Court Max Metzger, and Dr. Eduard Wahr, German experts at Versailles, have drawn up a long memorandum on the question of responsibility of the war, which will be presented as a reply to the joint commission's report on the subject.

The memorandum argues the necessity of submitting the question to an impartial commission for investigation, and denies there was any secret plan by Berlin and Vienna to destroy Serbia.

It says that the German government could not accept the efforts of Sir Edward Grey, the British Secretary of Foreign Affairs, who who offered to mediate, because he disclosed his powers to check the warlike aspirations of Russia. Emperor Nicholas' proposal to refer the dispute to The Hague also failed, as he, too, was unable to accept it.

The memorandum, the memo argues, made no mention of the day the general mobilization of thirteen army corps was ordered. Russia's imperialist policy, the memo argues, made war with Germany inevitable.

It states that one of the demands that Germany's naval policy was of such a nature as to arouse the distrust of Great Britain.

Austria Is Apathetic

Willing to Accept Conditions as Laid Down and Then Bring Peace

New York.—The Associated Press has the following:

Like the German government, the Austrian government is said to be dissatisfied with the peace terms of the allies and associated powers, which are declared by one of the responsible newspapers of Vienna to be unacceptable.

Unlike the German population at large, however, the Austrian people apparently are apathetic, having expected no easy terms, and are willing to accept the conditions as laid down, and then bring peace to the sorely stricken former empire, which is rendered by the treaty virtually an inland state of small territorial proportions.

After a casual glance over the peace terms, no German should have any doubt as to who won the battle of Jutland.—Toronto Telegram.

Canada's Status

In League on a Par With Smaller States of World

London.—Replying in the House of Commons to Mr. Norton Griffiths, Right Hon. Bonar Law, government leader in the house, stated that the government intended that the Dominions in the League of Nations should be as full as that of the smaller foreign nations. Representatives of the Dominions would be eligible for appointment to the executive council on the same terms as other members of the League.

Wish to Join Sweden

Stockholm.—The landing of the Aland Islands has been to the Peace Conference a resolution demanding the reunion of the Aland Islands with Sweden. The resolution was adopted after a meeting of delegates at Mariehamn.

Germany Prepares for Emergency

Paris.—A report has reached peace conference circles that Germany is preparing for war, and that the German coast defences, recently made a tour of the German coast defences and directed the personnel to be prepared for emergency. Only seven voted for the women.

U.S. Bomb Terrorism

Effect of Outrages Is to Prepare New and Severe Penalties for Convicted Perpetrators

Washington.—Investigation of the bomb explosions at eight cities, which were committed by public enemies, convicted secret agents and chiefs here, that the outrages had a common source, and that they probably can be classed as an unwise and unnecessary act of a small number of anarchist groups to repress a reign of terrorism, begun with the May Day attempt to deliver a series of internal machines through the mails out of New York. The German commissioners, who effected re-assembling fragments of the man who was killed at the door of Attorney-General Palmer's home, while attempting to place his cargo of dynamite in a safe, and who also caused the incidents today as a terror to terrify the country and stay the hand of the government, which purpose he ascribed to the authorities.

Government experts on explosives after surveying the site of the explosion here and the partially demolished dwelling, came to the conclusion that two bombs exploded, one probably having been thrown over a stone in the entrance.

In both houses of congress members began the preparation of measures providing new and severe penalties for convicted perpetrators of such crimes.

Allies Stop General Strike

Germans Protest Against Rhineish Republic

Coblenz.—A general strike throughout the occupied area was declared by Germany as a protest against repeated harsh treatment by the French authorities at Wiesbaden.

It was brief, however, being only four hours in duration, after the workers returned to their labor after being warned of the consequences by the French military authorities.

The principal strike leaders were railway employees and the street car workers at Treves and Coblenz.

When the news of the strike became known to the German strike leaders, that unless the Germans returned to work by 1 o'clock the leaders and all the other strikers would be deported into sections of Germany, the railroad strike commission reported that all the workers had returned to their jobs.

Newspapers in Coblenz printed stories denying the birth of a German republic at Wiesbaden, and asserting that the report was on the part of certain Germans to mislead the population of the Rhineland.

Alien Property

German Declares American Property Is Practically Inert

Paris.—The subject of German property in the United States and American property in Germany is receiving careful attention of experts, preparatory to an exchange of notes determining the status of the property.

German property in the United States, outside of ships, is estimated at \$450,000,000. American property in Germany is estimated at \$150,000,000.

Both sides are in agreement. Apparently they are disposed to return it, if the United States will adopt a similar course.

With recognizing the principle of liability of the property, the American view is that much of the German property in the United States is semi-governmental and therefore not protected as private property.

The merchant ships in American ports will undoubtedly be retained. The first plan was to offset their value against the American share of reparations. Now, however, the plan is to have the ships, the purchase price being utilized by Germany to meet reparations.

Disallow Women in Synd

Anglicans Fear If Women Attended Delegates

Away Men

Kington, Ont.—The Ontario Anglican synod has an Ontario Anglican synod, and an Ontario Anglican church, decided against a proposal to allow women to attend as delegates. The attitude of those opposed to the proposal was that if women delegates attended, the men delegates would be inclined to absent themselves from meetings, knowing that they could count the women in the present.

Bishop Bidwell took the view that while the church would be bound by having women delegates, it would be more to lose than gain in absence of the men delegates, which would result from permitting women to have part in the synod. He pointed out that the church would not get men to attend more; it would be harder if women were admitted. Only seven voted for the women.

Huns Must Take Hats Off to British Officers

Churchill Informs British House That This is Regulation

London, Eng.—Sir J. C. Wedgwood, who asked whether the Germans in occupied territories had to take off their hats and step off the sidewalk, on the basis of a similar question asked by Winston Churchill, secretary for war, said, amid loud cheers, that Germans addressed British officers they were required to take off their hats. He saw no reason to suppose that the Germans had not been told of the signing of peace. This was one of the military regulations made suitable and appropriate to the period of occupation.

The regulations were very much less severe than those which the Germans were accustomed to impose in occupied territories.

He believed that our regulations would bear comparison with those of any other army during the war.

He added to give the army of rights, he was not prepared to deprive the army of its rights.

Replying to supplementary ques-

tions as regards American practices, Mr. Churchill said he was unable to give a general answer.

He believed that the British army, which was not likely to be unduly severe. (Cheers.)

Asks Admission To League

Luxembourg Wish Their Country to Remain Autonomous

Luxembourg.—Secretary of State Robert M. La Follette, in a telegram to the president, asked him to send a letter to President Wilson inviting a Luxembourg delegation to come to Paris. He said the government was ready to leave at once for Luxembourg to take up the matter of autonomy and to conclude an economic union with France or Belgium, or with that was found impossible to open negotiations with the two countries to leave their conditions.

He added that the government was admitted to Luxembourg by the League of Nations.

Italian Claims Being Adjusted

Paris.—Italy's Adriatic claims, which have been overshadowed and practically inert, are being adjusted.

The Italian railway commission reported that all the workers had returned to their jobs. Newspapers in

Coblenz printed stories denying the birth of a German republic at Wiesbaden, and asserting that the report was on the part of certain Germans to mislead the population of the Rhineland.

When the news of the strike became known to the German strike leaders, that unless the Germans returned to work by 1 o'clock the leaders and all the other strikers would be deported into sections of Germany, the railroad strike commission reported that all the workers had returned to their jobs.

The inferior parts weaken the car—often injure other parts, cause trouble and breakdowns. The car could not be expected to give Ford satisfaction.

Genuine Ford parts can be bought wherever you run your car: We have on hand enough parts for the needs of every Ford owner in this district. Many other reliable garages carry complete stocks of Ford parts.

You need never accept anything but the genuine. You need never wait for them. Demand Genuine Ford Parts.

Last week a fire was started in the hills west of town by lightning striking a spruce tree during an electric storm. Sunday the high wind fanned it into such proportions that it was found necessary to call out help to fight the flames. About twenty men from the town and district were called out. They had a heavy task but managed to save the mill and a number of houses and to check the fire. Some of the fire fighters had narrow escapes through becoming surrounded by fire, but fortunately succeeded in making their escape.

At a meeting of the directors of the Agricultural Society held on Saturday evening, it was decided to hold their annual exhibition in any case whether it rained or not. The time table was altered so as to allow of sports commencing at 3 o'clock in the afternoon. Directors almost unanimously decided that there were to be no automobile races. It was decided to invite the Baseball League to hold a game at the fair. The secretary was asked to enquire as to the cost of procuring an aviator. R. S. Law and J. R. Watt were appointed a committee to arrange with the Veterans as to their attending the exhibition.

The Program arranged for the Calgary Exhibition which takes place July 27th and 28th, without a doubt the best ever presented, while the facilities for taking care of the visitors, as well as the exhibits, are greater and improved by the new concrete grand stand and cattle pavilion now in course of construction. The new grand stand will seat 6,000 people and the cattle pavilion will be a judgging and sale area as well as stable accommodations.

Fred W. Cook and Capt. W. E. D. F. C. of Calgary, and Capt. W. May, D.F.C. of Edmonton; several high class vaudeville acts; amateur and professional races.

The news department of the Calgary Albertan is our authority for the statement that unquestionable evidence has been discovered that the "I.L.A.W." which has long been known as the most rabid anarchist organization on this continent. Such a stench has been created around the "I.L.A.W." name that the leaders evidently thought they could no longer accomplish their diabolical aims under that name.

A LETTER FROM MAJOR SCHOOF

Several weeks ago Major Schoof started for Mexico City on a mission for American newspapers. Owing to the recent aggravation of the troubles there he was unable to accomplish his mission. Following is a letter just received from him:

New Orleans, La., June 20.

The Editor of the Review.

Dear Sir:—It was bad enough in Mexico before the United States troops fought Villa, but after the battle of Juarez we had to get out of old Mexico on the run. They sent us across the Rio Grande in a bunch like a herd of deer, and told us to trust to our luck. The United States Consul also cancelled our passes and they may as well write across the international frontier as "no returns." "Leaves hope behind," from the Sonora to Vera Cruz the rebels have sworn vengeance against Uncle Sam.

Now I wear an olive drab suit and leggings they always take me for a U. S. soldier and they snarled at me, "Meally Soldats Americanos" hissed me.

Gen. Diaz and Gen. Palais

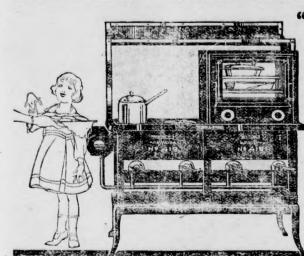

are moving toward Mexico City with 10,000 men. Villa and General Philippe Angeles have sent their messengers far across the Sierra Madre mountain to the wild Yaquis Indians up against the Gringos (Americans). Half the railroads are tied up and anarchist and Bolsheviks reign supreme.

Villa lost from 75 to 100 men in the fight with U. S. troops, but he told a reporter of the Associated Press that he could not account for the amount of ammunition of the federal Mexican army before Uncle Sam's boys got after him.

He said with a smile, "Men are cheap but I had to have cartridges loaded but I had with my end of the bargain."

I camped out with U. S. and Mexican soldiers, spent hours cooped up in sled traps on horseback, and got up in detention camps, and after a strenuous trip have just come in to the old town of New Orleans, Louisiana.

I am now trying to get for regular and the rest will go to two weeks' engagements in colleges, churches and theaters to give the folks the latest facts about Mexico. This is a wild place, like Butte, Montana, the most wicked city in the United
